

It has come to my attention that you are considering taking AIR 1 Christian Radio off the air for a new format. I live in the Mojave Desert. We have only 4 radio stations offered in town to us. Air 1 is the only Christian radio station we can receive. If you take this off the air, I feel you are violating my rights to choose the type of radio programming I listen to. This is the sole radio station for my entire family. I never have to worry about inappropriate commercials, lyrics or commentary. This station is the only station we allow our 8 and 9 year old to listen to.

This station has the christian values I want for myself and my family.

I contribute monthly to ensure the station meets their funding requirements. There are no commercials. I hear only what I want to hear. If you remove this station to allow a LPFM Broadcaster in our market, you will effectively destroy an entire community. We have no other alternative for our desired programming.

We are the ones who pay for it and I assure you, I will boycott and encourage all my friends and patients to boycott any LPFM station as well as any business that purchases advertising for them.

Air 1 is one of only a handful of radio stations nation wide that has decency standards, no commercials and is christian.

I sing my praise and worship to my Lord Jesus Christ through the music of Air 1.

This station is the only station heard in my office reception room. Many of my patients come to me because they know I am a christian. Please do not act in the interest of those who want christianity destroyed.

Respectfully, Thomas L. Taliaferro, D.C.
